05b-Home Center   (20 pts)

Design a single web page for a Home Improvement Center.

SETUP

Create a folder called "**04bHomeCenter**" on your local hard drive in the root of dgm2740 subdomain. Build your web page inside this folder and upload to the subdomain when you're done.

COMPANY INFO   2

Create a company logo that fills the left part of the header (see wireframes)

- ❏ Build a company Logo
- ❏ Include the company phone number as per the wireframe

NAVIGATION ITEMS   1

Implement two level navigation with nested unordered list that link to "#". Your code should look like the example below.

- ❏ Use at least 4 main list items
- ❏ Use at least 3 sub menu items **in each** second level list

RESPONSIVE NAVIGATION   4

Implement the following navigation styles

- ❏ Phone is Select/Option
- ❏ Tablet is left side with indented sub items (3 columns)
- ❏ Desktop is suckerfish dropdown menus that react to mouse over

CONTENT   3

Implement the following content

- ❏ Desktop has two columns of content
- ❏ Tablet has a single column that takes up 9 column

LARGE BACKGROUND IMAGE   3

Use a large background image

- ❏ Use a large background image that extends beyond the bounds of the container on both side (just for the desktop)
- ❏ Does NOT Repeat and blends into the wider background color

IMAGES   4

Use at least four sample images

- ❏ Images floats right and takes three columns on the desktop
- ❏ Image floats right and takes 4 columns on the tablet
- ❏ Image floats right and takes 50% on the phone

LOOK AND FEEL   3

How professional and polished does this look?

- ❏ Perfect CSS=3, Minor flaws = 2, Multiple mistakes = 1
